

Press Release FG02-10

Fiberguide Receives ISO 9001:2008 Certification

Certificate affirms the quality of manufacturing facility's management system

Stirling, N.J. (February 4, 2010) – Leading optical fiber manufacturer Fiberguide Industries has received ISO 9001:2008 certification for establishing and maintaining a quality management system for manufacture of fiber optic assemblies and optical fiber.

The certificate was awarded by third party registrar, TÜVRheinland®, after Fiberguide's facility passed the registrar's auditing process. ISO 9001:2008 is an internationally recognized certification, which ensures that a manufacturing facility meets a rigorous and comprehensive set of requirements dictated by the International Standards Organization (ISO).

For information about Fiberguide, contact Fiberguide Corporate at 908-647-6601, email info@fiberguide.com or visit www.fiberguide.com.

Fiberguide Industries, Inc. manufactures a comprehensive line of standard and custom high optical transmission fibers, OEM assemblies and ultra precision arrays. The company is a part of the global Halma technology group, which also includes photonics specialists Ocean Optics (www.oceanoptics.com), a leader in spectroscopy and optical thin films; and Labsphere (www.labsphere.com), a recognized expert in the light metrology field. FDA registered as a Contract Manufacturer and Custom Device Manufacturer, Fiberguide's corporate and optical fiber manufacturing facilities are located in Stirling, New Jersey, with a manufacturing/assembly facility in Caldwell, Idaho.
